

Meeting on Deep-dive on utility Venture Capital Arms Hold by BNEF and TPRI

(R&D Planning Office: Ms. Hsiang-Lin Chang)

TPRI and BNEF arranged to hold "Deep-dive on utility venture capital arms" online meeting on August 29. The exchange meeting was opened by General Manager Dr. Chung Nien-Mien, and a total of 30 people participated.

Amanda Ahl, an analyst at BNEF Grids & Utilities Associate, gave a speech on topics including how to innovate in public utilities, the importance and method of setting up a new venture investment department, and the introduction of public utilities' participation

in new venture investment projects. TPC participants quickly grasped how the international energy industry conducts corporate innovation and investment.

Through BNEF's professional views and rich report content, it is believed that it will be helpful to the company's corporate innovation planning and strategy. After this exchange meeting, TPC participants expressed that they learned a lot and were deeply inspired.
