

2022 TPRI Achievement Exhibition

(R&D Planning Office: Ms. Hsiang-Lin Chang)

Taiwan Power Research Institute (TPRI) held the "2022 TPRI Achievement Exhibition" grand opening at Taipower D/S 1 on September 14. Academia Sinica President Liao, NARLabs President Lin, Taipower Acting Chairman Tseng, President Wang, Vice President Hsu, and TPRI General Manager Chung jointly kicked off the exhibition. TPRI also held a "Future of Smart Green Power" forum, invited EPRI, APERC, and BNEF to share the trend of the international electric power industry and conduct in-depth dialogues with the guest

from government, industry, universities, and academy institutes.

With the theme of "Green Tide," TPRI planned four exhibition areas of "Future, Power, Smart, Green," which were grandly displayed at Taipower D/S 1 from September 14th to October 14th, 2022. The main theme of this exhibition is "Green" energy and the international trend "Tide," which shows Taipower's efforts in integration with international trends, as well as the research and development achievements in low-carbon energy and environmental protection.
