As Mr. Singson pointed out, AESIEAP 2019-2020 will focus on five core values, namely Shared, Smart,

Scalable, Social, and Sustainable, and will invite experts from Global Reporting Initiative (GRI) and National Renewable Energy Laboratory (NREL) to deliver speeches and exchange opinions with the attendees. He also mentioned that to improve the livings of thousands children in Philippine through electrification of schools, One Meralco Foundation (OMF) has initiated School Electrification Program since 2012, hoping that worldwide electric utilities will work together for the goal.

After meeting with Chairman Yang, Mr. Rogelio L. Singson and Atty. Melvin Matibag were led to the smart grid exhibitions on the ground floor of Taipower headquarters and attended a luncheon arranged for them.
